20+ years in the profession.

Education

- **Master of Science in Information Technologies and Computer Systems** (MScIT) – Distinction at Odessa State Polytechnic University – Ukraine from **September 1996** to **July 2001**
  - Field/Faculty of IT and Computer Engineering
- **Bachelor of Economics** (BEcon) – Distinction at Odessa State Polytechnic University – Ukraine from **September 1997** to **July 2001**
  - Field/Faculty of Management of Organizations

Professional experience 2001 - 2026

- **Senior Software Developer, Team Lead, Engineer Manager (.NET)** at **SDC group** form **June 2025 - …**
  - research into AI capabilities for collecting and analyzing sports data
  - ML workflows: LM-Kit.NET, RAG
  - Dev productivity: Claude Code AI + MCPs
- **Senior Software Developer, Team Lead** at **iGame Media Ltd.** (NI-GB) from **January 2021** to **March 2025**
  - SaaS, web services, system services, databases development
  - .NET (WebAPI, JWT, DI, Repos, UoW, SignalR, WebSockets, …)
  - React JS (TS, Redux - slice, axios, material/semantic UI), SCSS
  - MSSQL / MySQL / Mongo (Entity Framework, code first)
  - AWS (CI/CD, SQS-SNS, Secret-Manager, …, EC2, S3, RDS, Route53, IAM)
- **Software Lead Developer, RnD** at **ProdExport Ltd.** (Spain, UAE, Ukraine …) from **November 2019** to **December 2020,**
  - Trade branches management CRM
  - Desktop call center application with Twilio integration for a multilingual sales department.
  - Database development and analytics for internal accounting
- **Software Developer** at **UPITec Ltd.**, (Israel) from **February 2018** to **October 2019**
  - business data software for SAP B1 ERP
  - large retail applications, POI
  - CRM for call-center
  - integration third-part application with SAP B1.
- **Software Lead Developer** at **Start-up Papa School** from **January 2017** to **December 2017**
  - school quasi-state education project
  - web application for optimizing the workflow of educational institutions.
- **Managing Director** at **Edison-T** (Ukraine) from **November 2007** to **December 2016**
  - Internet projects, web sites
  - E-commerce projects
  - Databases, Desktop Apps
  - office optimization programs
- **Web developer** at **ArtAdmires web studio** from **September 2001** to **November 2007**
  - Internet projects and software development
  - e-commerce developer.
  - desktop apps, Web UI, DB development

Engineer Management

- Built a strong engineering team and developed specialists to the senior level.
- Ensured predictable delivery: achieved 80–90% sprint plan completion and improved Lead Time and MTTR.
- Implemented DORA/SPACE metrics, optimized CI/CD, and reduced the number of failed deployments.
- Made architectural decisions that ensured system scalability and stability.
- Improved code quality and review processes, and reduced technical debt.
- Established effective communication with stakeholders, increasing transparency and manageability of the development process.
- Drove growth in business metrics by accelerating delivery and enhancing product quality.

Stack of technologies	– .NET 10, .NET Core, C#; WebAPI, MAUI, MQ, WebSockets, Channel + BG services, … – React JS, (TS, Redux, Axios, Chakra UI) – MSSQL, MySql, PostgreSQL, Mongo v3, Entity Framework, LINQ – ElasticRearch, Redis, HangFire, MailGun, MediatR, Riok, … – Docker. Azure functions. AWS (CI/CD, MQ, SQS-SNS, EC2, S3, RDS, Route53, IAM);
Developed services	– **CRM** for call-center and marketing dep – **CMS**, Analytics for iGaming – **PLM,** fashion – **Payment** integration, payment processing, invoicing. – Logging, monitoring, access limiting service. – **POS** terminal integration
Languages	– Ukrainian - C2 (Native) – Russian - C2 (Native) – English - B2 (Upper-Intermediate) – Bulgarian - A1 (Elementary)
Additional information	– Date of Birth: March 30, 1979 – Family: wife, 3 children – Driver's license category "B" from 1997
Personality	– I can definitely bring value to your company. – Excellent work discipline. I am responsible, dependable, organized, reliable, hard working. – Attentive to details, communicable and good at solving problems. – Strong analytical and organizational skills. Capable of working as a project manager. – Having my own KPI for dev team assessment. Capable of working as a team leader. – Experience managing and hiring development teams.
Interested in	– large-scale projects with a complex distributed architecture – motivated, focused on results team – AI RAG, AI dev workflow implementation – modern approaches to engineering management
